*Please book your accommodations early as*

*Paradise fills up fast!!*

## FS128 – Hazmat Emergency Response Operation

### Course Description

This course is a necessity for employees of industries who manufacture, transport or store chemicals or other hazardous materials as well as fire and police personnel who respond to hazardous materials incidents including spills or drug labs. Through lectures, classroom and field exercises, students learn techniques to recognize, identify and assess degrees of risk involved with hazardous materials and their containers, appropriate safety precautions, selection of appropriate personal protective clothing with SCBA training, safe defensive control techniques to protect people, the environment and property, implementation of the Incident Command System (ICS) and the 8 Step Method of managing a hazardous materials incident. Through field scenarios, students employ classroom learning to respond to simulated incidents wearing all appropriate protective equipment and successfully demonstrate response management, and establishment of decontamination areas and procedures. This course is accredited by IFSAC and ProBoard in compliance with NFPA 472.

Prerequisites: IFSAC or ProBoard accredited Hazardous Materials Emergency Response - Awareness

Presentation: 4 days - lectures, classroom and field exercises, or if combined with Hazmat Awareness course.

Certification: Certificate of Achievement (Accredited)

Recommended Text: JIBC Hazardous Materials - Operations, Student Study Guide

LAPTOP: Students are encouraged to bring a laptop to class for information and research purposes.

**(Thursday, Friday, Saturday, Sunday: 08:00-4:30)**

**JULY 7-8-9-10**

**Available**

## FOCP110 – Fire Service Administration I

### Course Description

Learners will gain knowledge and skills to provide effective administrative support as a Fire Officer I. Learners will gain knowledge about the organizational structure, function and authority of the fire department and will be introduced to key administration functions such as note taking, report writing, records management, budgeting, and policy.

**(Thursday, Friday: 08:30 – 4:30)**

JULY 7-8-9-10 **Limited Seats**

## FOCP120 – Fire Service Administration II

### Course Description

Learners will gain knowledge and skills to provide effective administrative support as a Fire Officer II. Students will learn to effectively develop and change policy, prepare divisional budgets, work within departmental purchasing processes and manage organizational change.

**(Thursday, Friday: 08:30 – 4:30)**

JULY 7-8-9-10 **Available**

## FOCP113 – Frontline Leadership in the Fire Service I

### Course Description

Learners will gain knowledge and skills to provide effective leadership as a Fire Officer I. Learners will identify the roles and responsibilities of a Fire Officer I and describe the skills necessary to succeed in that role. They will gain an understanding of their personal style of leadership and explore the impact that style has on supervision. Learners will be introduced to key personnel management concepts including those pertaining to the health, safety and stress management of their crew.

(Saturday, Sunday: 08:30 – 4:30)

JULY 7-8-9-10 Available

## FOCP123 – Frontline Leadership in the Fire Service II

### Course Description

Learners will gain knowledge and skills to provide effective leadership as a Fire Officer II. Learners will acquire knowledge and skills to develop an effective fire department team, evaluate and maximize member job performance, resolve conflict and support community relationships such as that with the local media.

(Saturday, Sunday: 08:30 – 4:30)

JULY 7-8-9-10 Available

## FS185 – Incident Safety Officer

### Course Description

This course is designed to provide the skills to function efficiently as a Safety Officer in emergency incident operations. The primary focus will be on developing decision-making skills through recognition of cues that affect personnel safety while responding to an incident. As this is an incident-specific, scene-oriented course, designed to teach what a Safety Officer needs to know, there will be use of hands-on and table-top scenarios to convey instructional points. This course is accredited by IFSAC and ProBoard in compliance with NFPA 1521.

Prerequisites: Experienced fire fighters or industrial fire brigade members.

**(Saturday, Sunday: 08:30 – 4:30)**

JULY 7-8-9-10

**Available**

## FS101 – Fire Service Instructor I

### Course Description

This course introduces the student to the techniques required to deliver a course from a prepared lesson plan. Students will be exposed to training aids, evaluation instruments and methods of establishing a positive learning environment. Students will also explore record keeping techniques. This course is accredited to NFPA 1041 Standard for Fire Service Instructor Professional Qualifications, Chapter 4. Upon completion of this course, the student will receive a Certificate with IFSAC and Pro Board seals.

*Note 1: This course requires students to participate in fire fighting field exercises such as ladder deployment, fire hose use, car fire extinguishment and breathing apparatus use. Fire fighting training and background is a preferred pre-requisite. Note 2: Students are required to bring turnout gear for use on Day 2 & 3.*

**(Friday 1:00- 5:00, Saturday, Sunday: 08:30 – 5:00)**

JULY 7-8-9-10

**Available**

## FS196 – Basic Fire Suppression and Safety

### Course Description

The S100 course was developed by the BC Forest Service Protection Branch to meet regulatory requirements including WorkSafe BC, which states that all workers fighting forest fires must be trained and then retrained annually. This includes people who are hired to temporarily fight fires. This course covers: fire line safety, the fundamentals of fire fighting, fire behaviour and water delivery using portable pumps and gravity systems.

Prerequisites: None

Presentation: 2 days - Lectures, classroom and field exercises  
**(Thursday, Friday: 08:30 – 4:30)**

JULY 7-8-9-10

Limited Seats

## FS215 – Fire Operations in the Wildland Urban Interface

### Course Description

Upon completion of the S215 course, the participant will be able to size up and evaluate a potential Wildland-Urban Interface (WUI) situation, deploy the necessary resources using safe and efficient strategies and tactics to minimize property damage. This course is designed for Fire Department personnel.

Prerequisites: S100

Presentation: 2 day - Lectures, classroom and field exercises  
**(Saturday, Sunday: 08:30 – 4:30)**

JULY 7-8-9-10

Available

## FS194 – Marina Fire Fighting

### Course Description

Most communities of coastal and inland British Columbia have large bodies of water and marinas to house both commercial and pleasure vessels. Fires in these marinas pose challenges not normally encountered by land based firefighters.

The Marina Firefighting Course is a two day program that will prepare land based firefighters for marina firefighting. The course will cover topics such as marina construction, fuelling stations, vessel stability, hazards in fighting marina fires, as well as a review of firefighting foam, specialty equipment, and a marina visit to discuss strategies and tactics.

**(Saturday, Sunday: 08:30 – 4:30)**

JULY 7-8-9-10

**Full**

## FS183 – Pumps and Pumping

### Course Description

In this course the student will receive hands on training in the use of vehicle mounted pumps. Through classroom instruction combined with hands on training students will learn: vehicle maintenance; field hydraulics; driver responsibilities. The student will be challenged with a variety of pumping scenarios.

Prerequisites: Valid driver's license with Air Brake Endorsement  
Classroom lecture and practical exercises

**(Friday 1pm – 5pm, Sat, Sun 8:30 -4:30)**

JULY 7-8-9-10

**Full**
